A. POSITION SUMMARY

Briefly describe the role of the position within the department and college.

Assists the Executive Director of Facilities Management & Planning (FMP) in the implementation of programs and policies related to the maintenance of the campuses buildings, equipment, and grounds, and facility capital planning. Meets with various committees as designated by the Director, and substitutes for the Director, as required, at various meetings. In the absence of the director, is the principal representative to the VP Finance & Administration Office on physical plant matters.

Provides guidance and oversight for the planning and implementation of capital repair, renewal, or replacement of physical features on the Oregon Tech campuses. Manages pre-design, design, and construction of capital projects from initial concept development through turnover and occupancy. Leads and directs the design and construction process including managing project documentation, pre-construction design and budget development, construction bid process, value engineering, project scheduling, control of quality, change order negotiation, user move-in coordination, and cost control through project completion assuring conformance with established Oregon University System contract general terms and conditions. Manages project external service providers including; architects, engineers, consultants, commissioning agents, and contractors. Participates in owner construction meetings to review construction progress, quality, schedule and safety compliance. Coordinates the development and review of design documents at each phase of design. May serve as the point of contact for University stakeholders and campus groups with a role or interest in the project. May facilitate meetings to help campus groups reach consensus in project development and implementation while adhering to program, budget and schedule goals. Communicates regularly with academic departments: faculty members, department chairs, senior directors, and facilities staff.

The manager assists the Executive Director of Facilities Management and Capital Planning in executing the capital and deferred maintenance planning process to ensure projects submitted to the legislature are integrated with the universities' academic missions, budget, physical requirements, and goals. Assists the Executive Director with overseeing facility operations at the Wilsonville campus and serves as the property manager for the Harmony facility.

The manager is responsible for furthering campuses sustainability and renewable energy goals which includes coordinating and advocating Oregon Tech's integration of sustainable principles and practices into campus facility operations, procedures, and activities.
